**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-9 are rejected under 35 U.S.C. 102(b) as being anticipated by Stevens (6,018,339).

Regarding claim 1, Stevens discloses an automatic visual correction system for a computer screen showing a video signal being modified based on a user's prescription (col. 4, lines 20-37). The modified video signal enables a non-perfect vision user to see the displayed image on the screen. It should be noted that the computer system of Stevens is intended to display all kinds of video signals, including television signal.

Regarding claim 2, the prescription for each user is fixed.

Regarding claims 3 and 4, the correction system of Stevens is intended to use in or on a television receiver.

Regarding claims 5-9, see the corresponding rejections as set forth above.

***Response to Arguments***

3. Applicant's arguments with respect to claims 1-9 have been considered but are moot in view of the new ground(s) of rejection.
